(FOR KEY SEE REVERSE)

Available at the CIA Library is a photographic copy of the 1954 research and development plan of the Heinrich Hertz Institute of the East German Academy of Sciences. The plan itemizes the subjects to be followed during 1954 by (1) project title; (2) short title (Kennwort); (3) methods to be used; (4) estimates on the division of the work. Project titles include: theory of travelling wave magnetrons; construction of a magnetic field tube for the millimeter wave band; examination of kinetic reaction in semi-conductors; construction of an apparatus for the technical measurements of detectors in the microwave band; and other similar subjects.
